Team Work | Collaboration
Problem | Solving | Remote Work

INTERESTS

- Coding
- Travelling
- Music

ABOUT ME

Analytical and detail-oriented aspiring Full Stack Web Developer. Capable of writing production-ready code using ReactJS, Redux, and CSS on the frontend, NodeJS, and Express on the backend to build single-page applications. Passionate about coding. Looking to further enhance my Skill as the future full stack developer.

WORK EXPERIENCE

KnightFox Infotech Pvt Ltd.

Frontend Developer   **Jan 2023- Present**

- Spearheaded the development of responsive and user-friendly web applications using HTML, CSS, JavaScript, and React,TypeScript to enhance user experience
- Designed and implemented scalable backend solutions using Node.js and Express, ensuring optimal performance and responsiveness.
- Utilized MongoDB to design, implement, and maintain databases for efficient data storage and retrieval.
- Collaborated closely with UX/UI designers to translate design mockups into pixel-perfect implementations on diverse browsers and devices
- Employed version control systems such as Git to efficiently manage the codebase and facilitate seamless collaboration with team members
- Executed performance optimization and code refactoring initiatives to boost website speed and efficiency, resulting in a notable 20% reduction in page load times.
- Integrated third-party APIs to enhance functionality and streamline processes.
- Implemented microservices architecture for enhanced modularity and scalability.

Hexadecimal Software Pvt Ltd.

Software Developer   **Feb 2021 - Dec 2022**

- Created responsive and visually appealing user interfaces using HTML5, CSS3, and JavaScript,ReactJs, Redux
- Implemented design concepts in collaboration with UX/UI designers.
- Utilized React.js to build interactive and dynamic user interfaces.
- Worked closely with cross-functional teams to understand project requirements and deliver high-quality solutions.
- Conducted comprehensive testing and debugging to ensure functionality, security, and performance.
- Developed and implemented efficient queries to retrieve and manipulate data from MongoDB databases.
- Utilized Git for codebase management and collaboration.
- Designed and implemented RESTful APIs for efficient communication between frontend and backend.
