

FAIZAN KHAN

Full Stack Developer

ABOUT ME

I am a Full Stack developer with 4 years of experience in building responsive web applications using technologies like HTML, CSS, JavaScript, ReactJS, and TypeScript. I have expertise in Node.js, Express, MongoDB, and AWS services, including AWS Cognito and S3. My skills also include Redux, Chakra UI, Git, REST APIs, and data structures. I work effectively in Agile environments, using tools like Jira for project management and Git for version control. and Micro-Frontend and deplyment

EDUCATION

MCA. in (Computer Application)

Chandigarh University

04/2023 - 03/2025

B.Sc. in (Computer Science)

Jiwaji University Gwalior

04/2020 - 03/2023

EXPERTISE

HTML | CSS | JavaScript | ReactJS
Chakra UI | MateriaUI | Git | DSA | NPM |
Redux | Mongoose | MongoDB |
ExpressJS | Node JS | Data Structure
and Algorithm | Jira | Agile | Middleware
AWS | Asana | Firebase | AWS-Cognito
multer-S3 | NextJS | AWS services
TypeScript | RestAPI | Open Api |
Swagger | Jest | Micro-Frontend
| Python | SLO - SLI | Next.js | Playwright

SOFT SKILLS

Team Work | Collaboration
Problem | Solving | Remote Work

WORK EXPERIENCE

Devbay Technolab

Sr. Full Stack Developer

April 2025 - Present

- Worked on a healthcare monitoring platform focused on real-time patient tracking and visualization.
- Developed real-time dashboards using Chart.js to display patient vitals and monitoring data.
- Built multiple views including Summary, Trend, Session, and Detailed Analysis, each using different chart visualizations.
- Optimized handling of high-frequency real-time data to ensure smooth rendering and performance.
- Created reusable shared components to maintain consistency and scalability across the application.
- Collaborated with US and China-based teams, ensuring smooth cross-timezone coordination.
- Participated in direct client communication, requirement gathering, and feature discussions.
- Fixed production issues, enhanced features, and improved overall UI/UX performance.
- Ensured responsive, pixel-perfect UI implementation in Next.js.

SynRam Technolab Pvt Ltd.

March 2024 - April 2025

MERN Developer

- Developed and maintained full-stack web applications for the RoomHero project, utilizing the MERN stack (MongoDB, Express, React.js, and Node.js) to create dynamic, scalable solutions.
- Designed and implemented scalable backend solutions with Node.js and Express, optimizing performance and system responsiveness.
- Integrated AWS services, including S3 for file storage and AWS Cognito for authentication, enhancing both the scalability and security of the platform.
- Utilized Git for version control to manage the codebase and streamline team collaborations.
- Integrated third-party APIs to enhance application functionality and streamline processes.
- Led the frontend development using React.js, incorporating Redux for state management, and optimizing performance for seamless user interaction.

KnightFox Infotech Pvt Ltd.

Frontend Developer

Jan 2022 - March 2024

- Led the development of responsive and user-centric web applications using HTML, CSS, JavaScript, React, and TypeScript to improve user experience.
- Collaborated with UX/UI designers to convert design mockups into pixel-perfect implementations across various browsers and devices.
- Utilized Git for version control to manage the codebase and streamline team collaboration.
- Spearheaded performance optimizations and refactored code, resulting in a 20% reduction in page load times.
- Worked on projects like Albertsons, focusing on the payment module and UI subscription wallet.
